

Riverside Pediatrics is Affiliated with Anna Jaques Hospital

If you have given birth at Anna Jaques Hospital, you already know the care and compassion that Anna Jaques to families in the Greater Newburyport and Merrimack Valley area. Anna Jaques works closely with pediatricians and pediatric specialists in the area. Services available for children include:

Emergency Care

Each year Anna Jaques treats thousands of children in our [Emergency Department](#). From broken arms or fish hook injuries to more serious conditions, our Emergency Department has the experienced staff and pediatric expertise your child may need for timely and efficient care.

Should your child need more advanced care, Anna Jaques clinical affiliation with Beth Israel Deaconess Medical Center allows for the seamless transfer of patients from our Emergency Department to Boston by ambulance or MedFlight helicopter.

Pediatric Surgery

Hundreds of pediatric surgical procedures are performed at Anna Jaques each year, with more than a third involving children 12 years or younger. Common medical problems we frequently treat include pneumonia, asthma, gastrointestinal problems, broken bones, infectious diseases and surgeries like tonsillectomies and appendectomies.

Is your child having surgery at Anna Jaques? Visit our [Children](#) section and watch our friend, Andy, so you can see what you and your child can expect.

Pediatric Inpatient Unit

At Anna Jaques we believe parents or guardians are a valued member of your child's health care team. You know your child better than anyone else – and your involvement helps reduce stress and anxiety and foster healing. Our 8-bed unit cares for children under age 21.
